

N.E.W.S.® Team Navigation

Creating together the next phase of the team's movement and development.

For strategic team-building and for teams to align with the whole organization.

A high-impact structured 16-hour process. It is aimed at creating team alignment, commitment, engagement and renewed motivation.

Based on the NEWS Compass®, it creates a clear roadmap for your team, with the milestones to get there.

- Provide a structured process to solve internal and external challenges.
- Encourage discussions, based on consensus and "top-level buy-in".
- Improve communication with one common language.
- Drive team results and accountability.
- Impact team development as well as business results.
- Create unified high performing teams.

Driving change, together!

"In my organizational life I attended many strategic processes. I have never met anything like the N.E.W.S.® Navigation process for management. It was so fluid, so natural, so fast. Even with very different viewpoints we managed to create a joint strategy in a few days. This is outstanding."
Tom Gwin, CEO of Krausz - USA
